

BoardVitals: Opioid Prescribing, Substance Abuse, and Pain Management

Release date: January 1, 2021

Expiration date: December 31, 2023

Estimated time to complete activity: Up to 10 hours

Overview

BoardVitals provides a high-quality, effective, and a powerful online continuing education that is used by practicing physicians, residents, nurse practitioners, and physician assistants.

A case-based question bank for Opioid Prescribing provides up-to-date cases with questions and explanations with answers. The cases included in this activity are designed to provide evidence-based treatment options for patients with substance abuse and chronic pain, and provide best practices for opioid prescribing.

Target Audience

The target audience consists of practicing physicians, residents, nurse practitioners, and physician assistants specializing in who work with patients suffering from chronic pain or substance abuse.

Learning Objectives

Upon completion of this activity, participants should be able to:

- Perform an assessment of acute and chronic pain by evaluation of symptoms, course of illness, and past medical and psychiatric history.
- Safely and effectively prescribe and administer appropriate analgesic medications, including opioid pain medications, after assessment of the risks and benefits to the patient.
- Monitor efficacy, side effects, and development of tolerance or dependence to opioid pain medications.
- Recognize signs of misuse or abuse of prescribed medications.
- Initiate screening, intervention, and referral to appropriate treatment for patients with substance use disorders.
